roller or roman?
exposed or enclosed?

With the amazing new **Romatech No Sew Baserail System**, the choice is yours. By using the same spline system as the Romatech No Sew Batten, combined with the use of our Patented **Base Rail Applicator**, it just doesn't get any easier.

Available in White, Ivory, Rivergum, Black and Anodised Silver with matching End Caps, the new **Romatech No Sew Baserail System** is designed to be aesthetically pleasing from both the front and back and is perfectly suited to be used on Roman Blinds as well as Roller Blind and even Panel Blind systems.

- **Modern - Attractive from both front and back**
- **Efficient - No Sew and easy to use**
- **Flexible - Suitable for Roman, Roller and Panel Blinds**
- **Exposed or Enclosed - Two styles with one product**
- **Ability to add internal weights for larger blinds**
